

Message

The National Medical Library (NML) aims to provide wide and efficient library and information services to the health science professionals. NML has always been committed and dedicated towards all the members.

It has been running ERMED Consortium since 2008 which has benefited all faculties, researchers, students and others from allied disciplines. The NML has also added new Access Medicine online database which is also benefiting its members. It is a testament to its skills and ingenuity and shall bring more positive impacts with the use of advance technology.

Under the dynamic leadership of Hon'ble Prime Minister Shri Narendra Modi ji and able guidance of Hon'ble Union Minister for Health & Family Welfare Dr. Mansukh Mandaviya ji, India, in the age of 5G, has emerged as a hub of digital revolution in the medical feild.

The efforts for launching NML's new website after restructuring and adding new features for the benefit of information seekers are praiseworthy and I wish the team success in the future endeavors.

(Dr. Bharati Pravin Pawar)
